Applications Developed

[Personal Portfolio](#) (React | Bootstrap)

May 2023

- Developed an engaging front-end application with React to create an interactive portfolio.
- Employed Bootstrap, a popular CSS framework, to create a visually cohesive and responsive design with a seamless experience across different devices and screen sizes.

[The World of Studio Ghibli](#) (HTML | CSS | JavaScript)

Dec 2023

- Developed a dynamic web page utilizing HTML, CSS, and JavaScript, integrating the Studio Ghibli API to enhance user experience while providing real-time data.
- Utilized JavaScript to handle asynchronous data requests and responses to ensure efficient and smooth retrieval of information from the Studio Ghibli API.
- Implemented Create, Read, Update, and Delete functionality to allow users to interact with the web application.
